Faba Beans – Plant-Based Protein For The Future

Faba beans are rich in protein, fiber, and essential amino acids, widely used in vegetarian foods, meat substitutes, premium livestock feed, and nutritional supplements.

Highlights:

- High plant protein content
- Rich in iron, zinc, and fiber

- Non-GMO, sustainably cultivated
- Suitable for processing: split, milled, or roasted

Product lines:

- Whole faba beans
- Dehulled faba beans
- Raw beans for industrial processing
- Available in food-grade or feed-grade standards
