

Consultancy on Vietnam – Japan trade investment and promotion

Economically, Japan is the largest ODA provider for Vietnam, ranked second in terms of FDI investment with over 52 billion USD, and fourth in terms of trade relations with over 33 billion USD. In 2017, Japan was the largest investor in Vietnam with a total registered capital of over 9 billion USD. In the first eight months of 2018, Japanese investors continued to lead with US \$ 7 billion of investment capital, accounting for 28.8% of total investment capital in Vietnam.

According to the survey results of JETRO, up to 70% of Japanese enterprises plan to expand their business in Vietnam in the near future. The main reason for expanding operations originates the expected increase in revenue (88% of businesses assessed). The number of profitable businesses accounted for over 65%, an increase of 2.3 percentage points compared to 2016.

In the context of industrial revolution 4.0, Japanese businesses focus on investing in Vietnam in the areas of transport infrastructure development, clean energy, processing industry, electronics industry, manufacturing and industrialization. supporting industries, high-tech agriculture, logistics, aviation, luxury hotels ...

With the aim of connecting Vietnamese and Japanese businesses in Vietnam, with a wide network of business partners, we support connecting and organizing trade conferences between Vietnamese and Japan businesses.
